DIE-CUT WINDOW AREA

Hello GUTS participant,

We would like to say thank you for your dedication to the study. Your participation becomes more and more important each year. Now that we are 14 years into GUTS, we are able to study how experiences early in life impact the health of young adults. GUTS is one of the only studies in the world that can answer important questions about what life is like for young adults these days. And *you* make it possible.

At the beginning of the study, your mother gave us permission to send you surveys. Now that you are an adult, it is important that you give us permission to continue communicating with you. As always, this survey is voluntary and all responses are confidential. The responses you give us will be used only for confidential research purposes. By returning this questionnaire, you are agreeing to let us continue to contact you about the project. If you choose not to respond *to this survey*, we will contact you in the future about other surveys. If you don't want to participate at all, which we hope is not the case, call Laura Anatale Tardiff, GUTS Project Director, at 617-525-0353 and let her know.

Based on your suggestions, you will find in this survey a lot about you, your work, your relationships, and your view of the world.

Please visit our website www.gutsblog.com or become a fan of GUTS on Facebook (www.facebook.com/harvardguts) to send us your comments. Thanks again for your continuing participation.

\$5 Amazon.com® Gift
Card* for returning this
survey and may win one
of ten prizes: your choice
of an eBook Reader, an
iTouch, a Netbook, or
a Wii!

For this year's thank-you gift, we polled YOU to ask what YOU want! Thanks to all who responded to our e-mail and Facebook polls.

Turn over for details on this year's prizes, and thanks again. We couldn't do this research without you!
